Elisha Okello

WEBSITE DEVELOPER

I am passionate web developer with a knack for crafting digital experiences that captivate and inspire. With a keen eye for design and a mastery of coding languages like HTML, CSS, and JavaScript, I bring ideas to life on the web. From sleek, responsive layouts to dynamic functionality, I thrive on the challenge of turning concepts into reality.

Member
Avira

03/2023 - Present,

EDUCATION

Computer Science
Texas A&M University

07/2013 - 12/2017,
Courses
- Web Development
- Java Development

ORGANIZATIONS

Avira (02/2023 - Present)
Member of the Organisation

LANGUAGES

English
Full Professional Proficiency

PERSONAL PROJECTS

As a web developer, I'm excited to embark on a personal project that merges my passion for coding with my love for travel. "Wanderlust Explorer" will be a dynamic travel blog and itinerary planner, allowing users to discover hidden gems, share experiences, and plan their dream vacations. Utilizing HTML, CSS, JavaScript, and perhaps integrating APIs like Google Maps and OpenWeatherMap, I'll create an interactive platform where users can explore destinations, create personalized itineraries, and connect with fellow travelers. Through "Wanderlust Explorer," I aim to not only showcase my technical skills but also inspire wanderlust and foster a vibrant community of travel enthusiasts.
